## Episode 97 | Dan Tedesco and the AutismTrack iPhone/iPad app

Jan. 17 2011  
Via ConnectiCare

January 17th, 2011 Posted in Uncategorized

Today I had a great talk with Dan Tedesco of [HandHold Adaptive](#) and the new iOS (iPhone, iPad, iPod Touch) app called [AutismTrack](#) -

I talked with Dan a while back in [episode 66](#) about their first product, [iPrompts](#).

One of the things I enjoy most about our conversations is the fascinating picture Dan paints for the future of these handheld devices and how they can help individuals with ASD.

Here is more about AutismTrack from their website:
